Health, Safety and Environment Plan

- We ensure that all tools, materials and equipment used in the performance/delivery of the works are in good condition and are capable of performance of their intended functions without any detrimental [harmful] effect to safety, health or the environment as well as complying with all applicable statutory [fixed] requirements.
- We take responsibility for the discipline of our employees, sub-contractors and agents to ensure that they perform their duties in a safe, orderly, clean and environmental-friendly manner.
- We maintain highest standards of environmental care recognizing the impact of plant site activities.
- We follow and comply with the environmental policy at site by: Complying with legislation [laws collectively] and whatsoever possible exceeding minimum legal requirements.
- We comply with general rules as prevailing at the site like hygiene and safety environment, permit to work, personal protective equipment etc.
- We carry out basic health screening of our staff deployed and keep copy of reports. Apart from statutory needs, additional precautions are taken by us as directed by plant health center.
- We provide to our workmen [as and when necessary] protective clothing and safety aids such as helmets, gumboots, safety shoes, hand gloves, earplugs, nose muffs, first aid box with kit etc.
